CONDITIONING DIRECT
COLOUR FOR HAIR.

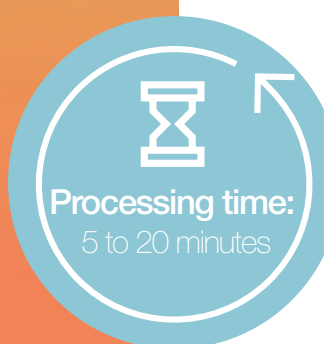

Instant delicate toning

products for colouring services
on **blond** or **lightened hair**.

With high quality pigments,
ammonia free and **oxidant free**,
it respects that hair's natural structure.

Use:

Distribute evenly over clean, damp hair, or over select strands
to create the desired target effect. After the processing time,
lather and rinse. If necessary, proceed with a conditioning cream.

milk_shake® light catcher **fast toning**

All of the **milk_shake®** light catcher **fast toning** products can be mixed together to create customised colour, although it is important to respect the principles of colorimetry.

THE SHADES CAN BE ADDED TO A SHAMPOO, MASK OR CONDITIONER TO GIVE A DELICATE TONING EFFECT FOR AN EVEN QUICKER SERVICE.

milk shake® light catcher

milk_shake® light catcher products are formulated with high quality ingredients, giving incredible touches of light to the hair.

MILK PROTEINS AND AVOCADO OIL ARE
THE PERFECT COMBINATION TO PLUMP UP
THE HAIR AND PROTECT IT:

milk proteins

Detangling and conditioning, milk proteins help to avoid the stiffness caused by lightening products, improving the hair's appearance and structure.

avocado oil

Avocado oil and its vitamins are a natural restructuring ingredient for the hair, a real beauty elixir that makes the hair shiny and strong.
